Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

THE PATHOLOGICAL EFFECTS OF RADIANT ENERGY ON THE EYE

AN EXPERIMENTAL INVESTIGATION

BY

F. H. VERHOEFF, A.M., M.D.

Pathologist and Ophthalmic Surgeon, Massachusetts Charitable Eye and Ear Infirmary; Assistant Professor of Ophthalmic Research, Harvard University.

AND

LOUIS BELL, PH.D.

Consulting Engineer; Past President Illuminating Engineering Society.

WITH A SYSTEMATIC REVIEW OF THE LITERATURE

BY

C. B. WALKER, A.M., M.D.

Assistant in Ophthalmology, Harvard University. Associate in Surgery, Peter Bent Brigham Hospital.

FROM THE PATHOLOGICAL LABORATORY OF THE MASSACHUSETTS CHARITABLE EYE AND EAR INFIRMARY.
